Preface

This *Long Range Plan* is the product of several facilitated planning sessions and multiple “assignments” prepared by Planning Team members. The fifteen member Planning Team was comprised of Park District commissioners, administrative staff, and selected members of the community. The planning team updated the agency mission and vision statements after identifying a set of core values that characterized the organization’s culture and beliefs. The Planning Team established a series of goals, categorized according to Programs and Services; Parks and Open Space; Facilities; and Team/Organization Development. Park District staff then developed and refined a series of goal-related action items to be implemented in years one and two of the *Long Range Plan*. Additional action items were identified for implementation in years three through five. Working closely with department heads, the executive director assigned responsibility for action items to key staff members.

The *Plan*, as ratified by the Park District Board, shall be updated annually. In preparation for Year Two of the *Plan*, the executive director will lead staff through a planning exercise that establishes new action items and refines existing action items for the next two years. In the fourth year of the *Plan*, upon direction of the Park District Board, a long range planning team will be established to affirm core values, mission and vision of the organization and embark on the preparation of the next *Long Range Plan*.

Historical Perspective

The Berwyn Park District was founded by referendum in 1920. As an autonomous governmental body, established by local voters, it has a rich history of preservation and service. Major accomplishments since the turn of the century have resulted in well-maintained and equipped parks, a strong security presence, technology enhancements, new and improved facilities, and a much greater focus on recreation service provision.

The past decade has witnessed the growth and development of a professionally staffed recreation division with comprehensive year-around programming that includes a regionally recognized early childhood recreation services. A strong commitment to working in concert with other local organizations is exemplified by agreements with Berwyn Little League for hosting and promoting girls softball as well as collaboration with School District #100 to provide externally funded services to youngsters through the Preschool For All (PFA) grant. Shared facility ventures with the local school district efficiently extend services to the community. The Community Garden, Berwyn Development Corporation, TIF Districts, and the Main Street Program are examples of successful collaboration. The Park District continues to partner with the City of Berwyn on special events and shared facilities and with the officers of the Berwyn Police
Department where they exercise joint enforcement of local ordinances and revenues. The Berwyn and North Berwyn park districts have maintained joint residency status. The Park District offers joint programs and promotional initiatives with the Berwyn Library. A series of community-wide special events contribute significantly to community pride.

The redevelopment of Freedom Park in 1999-2000, with enhanced playgrounds, a children’s water park, a lighted grass soccer field, was a major step forward for the Berwyn Park District. More recently, renovation of the administration building, expanded parking, and conversion to synthetic turf on the soccer field have made Freedom Park one of the crown jewels of the Park District. Maintaining the outstanding character of Proksa Park, the other crown jewel in the Park District’s system, through tree maintenance and replacement, playground upgrades, court resurfacing, ball-field upgrades and lighting has remained a priority. The acquisition of Liberty Cultural Center (former Sokol Slavsky-Berwyn) in 2004 represents a significant effort to preserve a local institution and enhance the overall delivery of leisure services to Berwyn Park District residents, particularly in the cultural and performing arts. Initial renovation has taken place and ambitious plans were established for further development of this community asset. The Park District contributed significantly to preservation of the historic Berwyn Depot, First United Methodist Church, and Piper Community House. Functional improvements at Hessler Park, the Centennial Fountain at Mraz Park, development of the skate park at Smirz Park, and the construction of a Children’s Garden represent the agency’s “systematic approach” to park and facility enhancement.

Resident support of the Park District was validated by the 2006 passage of a referendum that led to major community improvements. A continuing commitment to community involvement in Park District decision-making was evidenced by the composition and activity of the team responsible for this planning initiative, which relied heavily upon the 2008 community-wide survey to identify needs and interests of local residents.
Recognized Strengths

The Planning Group identified a number of positive agency characteristics. In an era of skepticism regarding the effectiveness and motives of local government elected officials and staff, the Berwyn Park District (BPD) enjoys a wonderful reputation and high level of public confidence. Such support and resident loyalty can only result from effective and recognizable performance.

The Park District is responsible for increasing levels of professionally planned and implemented programs and events for all ages. It appeals to families as well as to individual interests through activities such as athletics, aquatics, nature-based, and cultural arts. Programs are designed to bring joy to the participant while purposefully contributing to wholesome outcomes such as skill development, education, physical fitness, and stress reduction. As a result of BPD programs and services, residents are happier and healthier.

In general, the Park District is responsible for managing a physical plant that is diverse and relatively modern. This status lends itself to efficient and effective upkeep and maintenance in the face of increasing costs of operation. The Park District is home to beautiful mature parks that blend with residential areas to create a strong sense of community. The park system enhances property values and contributes to the community’s overall aesthetic appeal. Playing fields and courts are well maintained and safe. They are designed for durability and extensive use.
Recognized Challenges

The Planning Group also recognized several significant challenges facing the Berwyn Park District. Challenges can easily impede the Park District’s progress if they are not fully understood. However, a strategic approach has been recommended which examines potential impediments in respect to possible options, alternatives and opportunities.

The same positive reputation that was identified as strength also served as a reminder that local residents have high expectations and the Park District. Without question, the Park District possesses much opportunity for improvement. Despite significant progress, “real” and “perceived” security issues exist within the community, including its parks and facilities.

Increase in professional staff and upgrades in physical plant have produced observable growing pains and greater potential for service overlap with other public, not-for-profit, and commercial park and recreation organizations. The need for improved intra-agency and inter-agency communication/collaboration was apparent to the Planning Group. Given the number of organizations that provide local park and recreation services, there is evidence of significant overlap in the presence of obvious unmet need. Without a single (or more simplified) approach to informing the public of available park and recreation opportunities, there remains considerable confusion and lack of awareness (among residents as well as service providers).

Changing demographics, resulting in more culturally diverse constituents, require greater insight and sensitivity to local needs and preferences. Such change also points to the need for greater diversity among Park District elected officials, volunteers, and staff (full-time and part-time) as well as more creative ways to engage the public in agency decision-making.

An increasingly fragile economy will continue to constrain leisure consumption, but may actually result in resident choices that require less travel-related spending and greater reliance on the Park District. Increased operating costs will require the Park District to “do more with less” while also demonstrating sensitivity relative to segments of the population impacted dramatically by the recession. Establishment of alternative revenue streams will be necessary to augment resources derived from taxes and fees/charges.
Revised Statement of Mission Along With Statement of Vision and Core Values

Statement of Mission
The Planning Group defined the Park District’s Mission as a concise statement of the organization’s purpose. The Planning Group carefully reviewed the Park District’s existing statement of Mission and incorporated limited revisions, while adding a Statement of Vision.

Existing Statement of Mission:
The mission of the park district is to provide recreational opportunities for the community, enhancing the quality of life for area residents through fitness, fun, individual and family programs, and the opportunity to discover nature in an urban environment.

Proposed Statement of Mission:
To enrich the quality of life of the community by providing superior parks, facilities and recreational services in a fiscally responsible manner.

Statement of Vision
The purpose of the vision statement is to inspire, energize, motivate, and stimulate creativity. It describes how the Planning Group would like the Park District to be accurately perceived.

Proposed Statement of Vision:
To be viewed by the citizens of the Berwyn Park District as a valued investment in their daily lives through provision of safe, enjoyable, attractive and environmentally responsible parks and facilities with diverse programs and efficient and responsive services.

Core Values
The Planning Group examined past practice within the Park District, board and staff interpretations of organizational purpose, and the values accompanying such practices and beliefs to arrive at a set of core values that reflect the organization’s culture. The Planning Group felt that these values should be stated up front, for all to see and for all to judge. It is important for the board and staff to model these values in their personal work behaviors, decision-making, and interpersonal interaction. The core values should help each person establish priorities in her or his daily work life and guide every decision that is made. The core values should be structured to reward and recognize the contributions of employees, board members, as well as others. Organizational goals are grounded in the identified values. Adoption of these values and the behaviors that result from these values should be recognized in regular performance feedback. Adherence to the core values will ensure a truly organization-wide, value-based, shared culture.
The following represents the proposed statements of Mission, Vision and Core Values.

THE BERWYN PARK DISTRICT: A VALUES-DRIVEN COMMUNITY RESOURCE

All members of the Berwyn Park District team dedicate themselves to fulfilling the Mission of the Berwyn Park District. Their Vision for the Park District reflects attainable challenges that will require organizational agility, creative decision-making and continuous improvement. Five Core Values will be present and highly visible in all facets of the Park District’s operations.

Our Mission
To enrich the quality of life of the community by providing superior parks, facilities and recreational services in a fiscally responsible manner.

Our Vision
To be viewed by the citizens of the Berwyn Park District as a valued investment in their daily lives through provision of safe, enjoyable, attractive and environmentally responsible parks and facilities with diverse programs and efficient and responsive services.

Our Core Values
- **Collaborative Leadership**
  Maintain strong leadership that encourages and sustains collaboration with other organizations.
- **Cultural Diversity**
  Celebrate our rich cultural diversity by including all members of the community in the life of the Park District.
- **Exceeding Expectations**
  Whether it is a stroll in the park, involvement in a sports program, or attendance at a family special event, our commitment is to consistently exceed expectations of the community.
- **Sustainability**
  Our organizational practices will consistently demonstrate commitment to environmental and fiscal sustainability.
- **Professional Development**
  The provision of superior service to the community requires the attraction and continuous development of dedicated, highly motivated and competent board and staff.
